1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

 Claims 1-14, drawn to an apparatus carried by hand, classified in class 294, subclass 137.

II. Claims 15-20, drawn to a method of scanning, classified in class 358, subclass 474.

In the instant case, the process for using the product as claimed can be practiced with another materially different products such as scanning handheld reader, barcode housing.
- 3. A telephone call was made to Martin L. Stoneman on June 2, 2005, to request an oral election to the above restriction requirement, but did not result in an election being made.
